|---------------------|---|---|
| CONTACT INFORMATION | 2823 18th Street Apartment 634 San Francisco, CA 94110 | <i>E-mail:</i> clewisbeck@gmail.com <i>Phone:</i> (617) 784-3596 <i>Web:</i> Personal Website |
| RESEARCH INTERESTS | Causal inference, machine learning, forecasting, reliability, Bayesian methods | |
| EDUCATION | Ph.D., Statistics Iowa State University | 2018 Ames, IA |
| | Dual M.A./M.P.P., Applied Statistics and Public Policy University of Michigan | 2010 Ann Arbor, MI |
| | B.A., French with honors Middlebury College | 2005 Middlebury, VT |
| COMPUTER SKILLS | Scientific Programming: Python, R, Rcpp, RStan, SQL, UNIX Markup Languages: \LaTeX , Markdown Software Development: GitHub | |
| EMPLOYMENT | Research Scientist II Amazon.com, Inc. | 2022 - present San Francisco, CA |
| | Research Scientist, Statistics Eli Lilly and Company | 2021 - 2022 Indianapolis, IN |
| | <ul style="list-style-type: none">• Develop and implement clinical trial enrollment predictions using linear models. Communicate results to senior leadership to inform FDA submission strategy.• Assess the impact of decentralized clinical trial study design on data quality using Cox proportional hazard model simulations. Results were published in an internal white paper to provide guidance for future studies.• Lead the statistical programming team to deliver analysis reports for medical review meetings, and senior management review.• Collaborate cross-functionally to monitor and clean the data of a large-scale clinical trial, leading to a successful interim analysis showing superiority of company molecule. | |
| | Visiting Assistant Professor University of Iowa, Department of Statistics & Actuarial Science | 2018 - 2021 Iowa City, IA |
| | <ul style="list-style-type: none">• Developed Bayesian forecasting methodology to predict hard drive failures. Wrote and published a first author peer-reviewed paper in top-tier statistical journal.• Built Bayesian nonlinear hierarchical model to predict time of peak crop growth to inform agricultural strategy. Evaluated model fit using a combination of cross-validation and comparison with USDA survey data.• Collaborated with researchers in engineering, statistics, and political science on applied statistical research resulting in 10 peer-reviewed publications. | |
| | Software Development Intern Google Summer of Code, NIMBLE | Summer 2017 Berkeley, CA |
| | <ul style="list-style-type: none">• Productionized R package, <code>nimbleEcology</code>, to dynamically generate model code allowing non-technical users to fit Bayesian ecological statistical models.• Validated software using unit testing via the <code>testthat</code> package.• Collaborated with statisticians and software developers on source code using GitHub. | |

| | | |
|------------------------|---|------------------------------------|
| TEACHING EXPERIENCE | Lead Computing Consultant University of Michigan <ul style="list-style-type: none"> Managed a staff of 8 Computer Consultants as part of the Interuniversity Consortium for Political and Social Research (ICPSR) Summer Program. Assisted program participants and faculty with a wide range of statistical and programming backgrounds with questions related to statistical software including R, Stata, SPSS, and SAS. | Summer 2013, 2014 Ann Arbor, MI |
| | Statistical Analyst STATinMED Research <ul style="list-style-type: none"> Analyzed large claim databases using advanced statistical techniques (e.g., GLMs, SEMs, propensity score matching, and meta-analysis). Drafted statistical protocols and wrote final manuscripts analyzing and interpreting study results for client, as well as academic, publication. Worked directly with clients, senior researchers, and programmers to ensure projects were completed correctly and on schedule. | 2011 - 2012 Ann Arbor, MI |
| | Instructor Stonehill College, Meehan School of Business <ul style="list-style-type: none"> <i>Quantitative Analysis (Online)</i> | Spring 2021 Easton, MA |
| | Instructor University of Iowa, Department of Statistics & Actuarial Science <ul style="list-style-type: none"> <i>Econometric Analysis</i> (S19) <i>Elementary Statistics</i> (S21) <i>Mathematical Statistics I</i> (F18, F19, F20) <i>Mathematical Statistics II</i> (S19, S20) <i>Statistics & Society</i> (F18, S19, F19, S20, F20, S21) | 2018 - 2021 Iowa City, IA |
| | Instructor University of Michigan, ICPSR Summer Program <ul style="list-style-type: none"> <i>Introduction to Meta-Analysis</i> (Su18) <i>Introduction to Regression Analysis</i> (Su19, Su20) | 2018 - 2020 Ann Arbor, MI |
| | Instructor Iowa State University, Department of Statistics <ul style="list-style-type: none"> <i>Statistical Methods for Research Workers (Graduate Course)</i> (Su18) <i>Probability and Statistical Inference for Engineers</i> (S18) <i>Engineering Statistics</i> (S17, F17) | 2017 - 2018 Ames, IA |
| | Teaching Assistant Iowa State University, Department of Statistics <ul style="list-style-type: none"> <i>Applied Statistical Modeling (Graduate Course)</i> (F15) <i>Introduction to Statistics</i> (F14, S15) | 2014 - 2015 Ames, IA |
| | Graduate Student Instructor University of Michigan, Department of Statistics <ul style="list-style-type: none"> <i>Introduction to Statistical Reasoning</i> (F09, S10) <i>Introduction to Statistics and Data Analysis</i> (S09) <i>Statistics for Public Policy (Graduate Course)</i> (S08, F08) <i>Introduction to Microeconomics for Public Policy</i> (F07) | 2007 - 2010 Ann Arbor, MI |

| | |
|--------------------------|---|
| AWARDS AND GRANTS | University of Iowa Public Policy Center, Summer Scholars Grant, \$3,000 (with Tom Rice) (2020) |
| | Teaching Excellence Award, Iowa State University, Dept. of Statistics (2018) |
| | SAGE Cornerstone Author Award for publication (with Michael Lewis-Beck) of <u>Applied Regression: An Introduction</u> , Second Edition (2015) |
| | Outstanding Teaching Award, University of Michigan, Dept. of Statistics, \$500 (2010) |

PRESENTATIONS AND WORKSHOPS “Prediction of Future Failures for Heterogeneous Reliability Field Data.” Invited seminar presented at the Bayesian Seminar Series, Eli Lilly, Virtual, September 2021.

“Social Capital and Shared Leadership in Small Iowa Communities.” Invited talk (with Tom Rice) at the University of Iowa Public Policy Center, Virtual, February 2021.

“Forecasting the 2020 U.S. Elections.” Invited talk (with Michael Lewis-Beck) at the Data Analytics Colloquium, University of Texas at Dallas and the National Chung Hsing University, Virtual, November 2020.

“Prediction of Future Failures for Heterogeneous Reliability Field Data.” Poster presentation at the Joint Statistical Meetings, Virtual, July 2020.

“Using the M-RA Approximation to Integrate Multiple Data Sources on Temperature.” Talk presented at the Joint Statistical Meetings, Denver, CO, July 2019.

“A Hierarchical Model for Heterogeneous Reliability Field Data.” Invited seminar presented at the Department of Statistics and Actuarial Science, University of Iowa, Iowa City, IA, March 2019.

“A Parametric Approach to Unmixing Remote Sensing Crop Growth Signatures.” Talk presented at the Joint Statistical Meetings, Vancouver, B.C., August 2018.

“A Nonlinear Hierarchical Approach for Modeling Crop Growth in the US Corn Belt.” Talk presented at the Kansas State University Conference on Applied Statistics in Agriculture, Manhattan, KS, May 2018.

“A Hierarchical Model for Heterogeneous Reliability Field Data.” Poster presentation at the Joint Statistical Meetings, Baltimore, MD, August 2017.

Graduate Workshop on Environmental Data Analytics, National Center for Atmospheric Research, Boulder, CO, June 2017.

“An Introduction to Statistical Thinking for Forensic Practitioners.” Invited talk (with Hal Stern) at the Center for Statistics and Applications in Forensic Evidence, Palm Beach County Sheriff’s Office, Palm Beach, FL, March 2016.

“Regression Questions You Always Wanted to Ask.” Invited Blalock lecturer (with Michael Lewis-Beck) at the Interuniversity Consortium for Political and Social Research, University of Michigan, July 2015.

“Analysis of relationship between psoriasis severity and quality of life, work productivity, and activity impairment among patients with moderate to severe psoriasis using structural equation modeling.” Poster presented at International Society for Pharmacoeconomics and Outcomes Research, Washington, D.C., June 2012.
